2021

WELCOMING MESSAGE

Dear international students, we are glad to welcome you to our university! We wish you a comfortable stay in Ternopil, successful studies and unforgettable experiences!

We strongly recommend you to get familiar with information in this guide. We hope that advice we offer here will help you to avoid unnecessary difficulties and problems.

Dean's office staff is readily available to assist students in solving the majority of the issues. The Dean's office (Maydan Voli, 1) is open for your general inquiries from 15:00 to 18:00 on weekdays (int.tdmu.edu.ua, tel. +380352253998, e-mail: deans_office@tdmu.edu.ua).

Please remember, that all international students must abide by the Laws of Ukraine as well as the Internal Regulations of the University and Campus along with the University's Code of Conduct.

WELCOME TO TERNOPIL NATIONAL MEDICAL UNIVERSITY!

As a Rector and alumnus of the University, I am both honored and excited to be a part of the team shaping its future. Professors, students, alumni and friends from Ukraine and abroad work tirelessly together to bring about its values of academic excellence, integrity and compassion.

The energy and passion of our employees never cease to amaze me. Whether it is teaching, research, managing every day University affairs, or serving the local community, our professors and staff are excited about their work and the potential that we have.

Year after year, Ivan Horbachevsky Ternopil National Medical University achieves top placements and high scores not only in nationaland international academic rankings. It is our job to maintain this momentum and bring it up to a new level. I have complete confidence that our University will continue to improve its position as one of the nation's top medical schools.

Whether you visit us online, or in person, I cordially extend to you a warm welcome, as there is no better place to study, grow, and develop as an outstanding personality, and to become a truly committed and skillful health care professional. I invite you to get in touch and bring forward your ideas and dreams for our shared future.

The office of the rector is always open to you.

Prof. Mykhaylo Korda, rector

COAT OF ARMS AND ANTHEM OF TNMU

Слова А. Вихрущ
Музика Ю. Кіцила

Багате Тернопілля на таланти,
Батьки дарують дітям добрий злет.
Обрали ми і розумом, і серцем,
Тернопільський медуніверситет.

Приспів:

Ми на сторожі вашого здоров'я,
До нас ідуть дорослі і малі.
Служіння людям – благодатна доля,
Покликання найвище на Землі

У єдності професора й студента
Є медицини неповторна суть.
Знання, здобуті в рідній Альма Матер,
Нам успіхи і славу принесуть.

Приспів

Лікуємо з молитвою у серці,
Ми відчуваєм болі і жалі.
Служіння людям – благодатна доля,
Покликання найвище на землі.

Багате Тернопілля на таланти,
Батьки дарують дітям добрий злет.
Ми вибираєм розумом і серцем
Найкращий в світі університет –
Тернопільський медуніверситет

Mission of TNMU

TNMU is committed to training highly qualified specialists for the health care systems of Ukraine and other countries by offering quality academic services in line with European standards; applying excellence in teaching to train students, interns and doctors; promoting individual development of medical professionals, who will grow to exemplify compassion and care throughout their careers and serve their patients in the best traditions of the medical calling.

TNMU is dedicated to development of fundamental and applied research in biomedical sciences, pharmacology and public health, conducting innovative studies and implementing science-based knowledge into medical practice; offering high-tech research-backed health care and developing new diagnostic and treatment approaches as required by the Ukrainian health care system; ensuring the highest ethical and professional standards in all activities.

TNMU is committed to ensuring a quality working environment for its faculty and staff, creating opportunities for their professional advancement, academic leadership and personal expression; fostering in the students personal growth, professional development, cultural and spiritual pursuits, and opportunities to shape their academic path to become highly educated, independent and dedicated professionals.

Vision of TNMU

Click here

Ivan Horbachevsky Ternopil National Medical University is an innovative institution of higher medical education, that is faithful to its historical traditions and at the same time recognizes the latest opportunities of the shared European academic space. TNMU supports leadership in medical education and science, creates conditions for innovative self-realization, academic mobility and international recognition of its students and faculty, is actively developing and seeks to become a prominent and powerful facility for training and research of highly educated professionals, who will become competitive in the domestic and international labor markets, and confident in the demand for their professional knowledge.

ACADEMIC INTEGRITY

Academic integrity is an integral part of the educational processes at Ivan Horbachevsky Ternopil National Medical University

To adhere to academic integrity means:

- to perform academic tasks and the tasks of on-going and final control independently (for persons with special education needs, this requirement is applied taking into consideration their individual needs and capabilities);
- to reference sources of data, ideas, statements and other outside information;
- to comply with national and international copyright laws;
- to give truthful information about the results of own academic (research, creative) activities.

PARTICIPATION OF STUDENTS IN UNIVERSITY ACTIVITIES

STUDENTS CAN BECOME THE MEMBERS OF:

- academic integrity group;
- University council on quality of education;
- faculty commission on quality of education;
- academic councils of the University and faculty;
- university and faculty labor unions

STUDENTS TOGETHER WITH THE ADMINISTRATION AND FACULTY CARRY OUT:

- assessment of the quality of educational activities by the pursuers of higher education;
- dormitory assignments;
- transfer, expulsion and re-admission of students at TNMU;
- defining the main directions of University activities: organization of the educational process, approval of educational programs and curricula, elections of department heads, full and associate professors.

REGULATORY FRAMEWORK GOVERNING THE ACADEMIC PROCESS

The academic process taking place in the University complies with the Ukrainian laws “On higher education”, “On education”, “Licensing of different types of economic activities”, as well as applicable regulations of the Cabinet of Ministers of Ukraine, Ministry of Health Care of Ukraine, Ministry of Education and Science of Ukraine, and taking into account state standards of higher education, other national legislative acts and regulatory framework of the University, all of which are posted on the official TNMU website.

STUDY SYSTEM, AUTOMATIC CONTROL SYSTEM

1

Lectures and practical classes for the 1st, 2nd and 3rd year students are scheduled using the "ribbon study system":

1st period 9:00–10:30
2nd period 11:10–12:40
3rd period 13:30–15:00
4th period 15:40–17:10
5th period 17:50–19:20

2

Lectures for the 4th and 5th year students are scheduled using the "combined day study system":

1st lecture 9:00–10:30
2nd lecture 11:50–12:20
3rd lecture 12:40–14:10
4th lecture 14:30–16:00

3

Structural components of practical classes in the "combined day study system":

Practical part of the class 9:00–11:15
Independent work 11:15–12:00
Break 12:00–12:30
Seminar 12:30–14:00
Break 14:00–14:15
Control part of the class 14:15–15:00

ACS
MOODLE

What is the Automatic Control System (ACS)?

ACS is a time management system that remotely engages students with the study process through a web portal and application. ACS provides access to the work plan, schedule, grades record, list of elective courses, and registration for consultations. The student can also see missed classes, schedule of consultations, current and final grades.

Instructions for using the system:

Click here

What is MOODLE?

MOODLE is a database for distance learning, which contains study and methodological materials (lectures notes and presentations, study guides for practical (seminar) classes, and video resources). MOODLE is also used for testing the knowledge and carrying out surveys of teaching quality to evaluate the teachers. Using a personal university account, the student can access study materials, tests and other resources according to his (her) course and specialty.

Instructions for using the system:

Click here

SIMULATION TRAINING CENTER

The aim of the center is to improve knowledge and practical skills of the students by modeling various emergencies with the help of simulators, mannequins, virtual software and standardized patients.

Address: Ternopil, Chekhov str. 3

Click here

Elective courses are the disciplines that students can select independently after attaining a certain level of higher education. These courses are aimed at providing general and specialized (professional) competencies in a certain field of study.

ELECTIVE COURSES

How to register?

1. Find out more about the list of elective courses using the QR-code
2. If you have additional questions, contact the person within the relevant academic department who is in charge for this course
3. Decide on the disciplines for the next academic semester
4. Fill out an application and submit it to your course inspector

List of courses

Click here

International academic mobility

While studying at TNMU, students have the opportunity to participate in academic exchange programs, such as a semester- or year-long training at foreign partner universities who either entered into direct bilateral agreements with TNMU or are partners in Erasmus+ projects. Taking part in these exchanges gives students the opportunity to study in best universities and clinics of the world, gain valuable experience, improve their professional skills and develop new friendships with their peers abroad.

STUDENT RESEARCH

The Scientific Society of Students (STS) unites those who is taking the first steps in the field of science. You will learn to write about and defend your research results, find like-minded colleagues, develop leadership and communication skills. Every year students and young scientists participate in the International Medical Congress, which is organized by STS and involves a large number of young scientists not only from our university, but also from other medical institutions of Ukraine.

SCIENTIFIC PROGRAMS

To make student research more efficient, there are two programs: “Student science and vocational training” and “Student, a future highly qualified specialist”. Young researchers can enroll in either of these programs to work on and present their scientific findings.

INTERNATIONAL STUDENTS SUMMER SCHOOL

International students summer school is a unique international educational and entertainment project for medical students from all over the world.

At the summer school you will:

- network with representatives of foreign educational institutions and share experiences of student research and practical work;
- join workshops and training led by prominent health care practitioners from Ukraine and abroad;
- join as a team member for the training program “Medicine of emergency states”;
- raft down the Dniester river, one of the longest and most beautiful rivers in Ukraine;
- immerse yourself in the atmosphere of co-working and team-building together with the representatives of medical universities from different parts of the world;
- go to the TERISS once and become a part of the big international family for life.

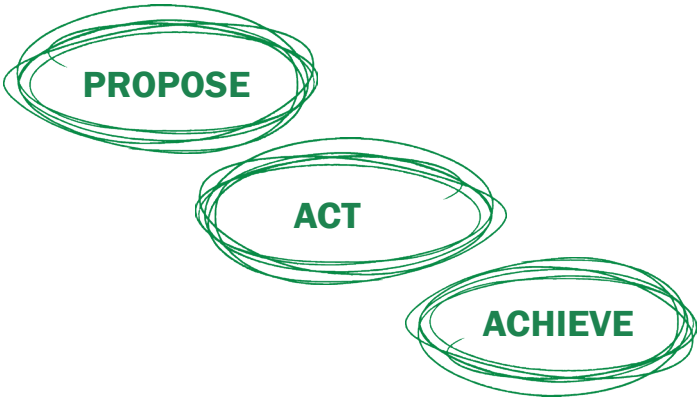
TNMU Student Parliament

The Student Parliament is the executive branch of student self- governance. It represents the position of young people in different spheres of academic life, plays an active role in organizing events to fully promote learning and research activities, as well as social, athletic and creative endeavors of students.



- The Student Parliament is an organization that engages students in the life of the University, city, and country.
- It is a place where students can meet like-minded people and make friends.
- The Student Parliament is an excellent space for personal development in various fields and allows one to discover new strengths and talents.

Click here

All University students can be elected to the Student Parliament membership. The vote takes place by direct secret ballot.

Associations of international students

TNMU community of international students from 60 different countries creates a unique cultural diversity. Many students join groups representing their countries. These international student associations are run as non-profit organisations by the students themselves, and are not linked to any political party.

International student associations from different countries ensure the proper welfare of their members in terms of education, health, greater security and all social aspects of life. They foster unity and co-operation among international students, promote dialog between the student body and university authorities, and ensure that any issues and problems are promptly and effectively addressed. Another important aim of the associations is developing good relations between international and local students of TNMU. Associations hold various events and celebrations spotlighting their cultures, organize study seminars, debates, and other programs that benefit the entire student body.

MENTORING SYSTEM

Student mentor corps

A mentor is a senior student who understands the difficulties every freshman encounters, has experience dealing with the common issues and helps to navigate through them. Mentors give advice on academic matters, as well as free-time and extracurricular activities at the University.

Curators

A curator is a teacher that

- helps students to adjust to the academic environment;
- familiarizes them with aspects of university life;
- involves students as a group in university projects, events and participation in the Scientific Students Society;
- informs them of the rules and regulations pertaining to the study process and features of the module credit system;
- gives recommendations on developing an individual curriculum and organizing independent work;
- becomes a contact point with parents of the students, informs them about academic achievements and setbacks.

Click here

Tutoring

Tutors help their peers during academic year, focusing on one-on-one teaching as a vital part of the university academic process. The best and most accomplished students prepare video lectures, study materials and share them with others. Tutors prepare and run group workshops and discussions to clarify difficult concepts, facilitate learning and prepare for term exams and and the qualifying state exam KROK.

Students that interested in learning pre-clinical subjects (mostly, students in the 1st to 3rd years of study) can to take part in peer assisted learning via the project “MedGRADiENT”. Its motto is: “Learning Medicine Made Simple”.

VOLUNTEERING MOVEMENT

Medical profession is a demanding field, but there is always a sense of satisfaction brought by being able to do good deeds, help others and grow not only professionally but also spiritually. That is why the volunteer movement at the university is such a success. Each year, hundreds of students, including international students, join the ranks of volunteers. The doctors-in-training carry out outreach activities, assist service men and women, help people from socially disadvantaged groups, those with disabilities, orphans, the elderly, and others.

The Creative Team

Everyone is invited to become a member of the “Creative Team”! People of all talents are welcomed in this student group, where they inspire and help each other to uncover new potential!

This is a place for a reticent dreamer stashing his poems and stories away, and for an expressive YouTuber who has been for years sharing covers on his channel. The sense of humor and unique dance moves are also highly valued attributes!

Online and offline concerts, literary and musical events, master classes, art contests and pageants – the “Creative Team” brings to life all these and much more to make the student experience even more special and vivid!

Click here

The theater studio “Art-Drama”

Students participating in the theater studio develop many skills: not only the expected ones such as a clear diction, self-confidence, and the ability to carry themselves, but also being able to understand the human nature, to see the hidden essence of things, to absorb the world around through all senses.

Studio participants will completely transform into other characters, however they will never lose their individuality. Do not miss their performances to be amazed at how many talented students study at our University.

OUTLOOK

This is a team of creative, quick-witted students who work on a student vlog, which these days is viewed all over Ukraine. It is a platform that brings together not only students of different courses, faculties and specialties, but also the whole student body with professors, university administration, famous individuals and public figures of Ternopil and the country.

Among the videos created and published by the team are online lectures by famous personalities, evidence-based publications on important medical topics, reviews of clinical cases, educational videos, lectures helping the students to prepare for the state exam KROK and to learn Ukrainian language, as well as outreach conversations on health topics for schoolchildren of different ages.

ATHLETICS AND SPORTS

Healthy lifestyle and physical activity is the motto of the University sports center. TNMU students have access to a number of different courts and training facilities, staffed by experienced coaches and instructors.

The University has different athletic teams: football, volleyball, basketball, badminton, gymnastics, tennis, table tennis, cheerleading, yoga, chess, rugby, and dance sports.

Students are invited to:

- **Sports and gym hall**
  Kotsiubynskyi str. 3
- **Dance and rehearsal hall**
  Yu. Slovatskoho str. 2
- **Gym**
  Hostel № 1, Zhivova str. 3a

Click here

STUDENT HOUSING

More than 1.5 thousand university students live in 4 hostels. The dormitories have 2-3-4 person rooms with shared kitchens, restrooms and other facilities.

There are 2 sports grounds, a library, 3 gyms, catering, medical and housekeeping services on campus.

Each dorm has meeting and study rooms as well as a events space.

Students are required to follow special rules of residence in the dorms. More details can be found on the University website.

TAKE CARE OF YOURSELF, AND KEEP CALM!

RECREATION CENTER “CHERVONA KALYNA”

The center is located outside of the city and includes two hostels and four detached buildings with three to four rooms each. In additions, the Center encompasses a congress facility, food service, and the facility for disease prevention and rehabilitation. Those staying on the premises have access to exercise equipment, athletic courts, a tennis court, volleyball and football fields, billiard tables, and an outdoor pool.
